Centerbrook Meeting House**

How it Works

- **Four rounds of five questions** - you get one song to answer each question, determine your wager and bring your answer sheet up to the WhatTrivia team to be scored before the song ends.
- **One halftime, one third quarter bonus, and one final question** - These questions are more involved and will vary in value.
- **You don't lose points except...** - You don't lose the points you wager during any of the rounds, only the final question.

Even the best can lose - In the final round, you can wager up to the amount of points you've earned so far. But be warned: you stand to lose those points on an incorrect answer.

Rules of the Game

- **Teams of Eight** - Find the smartest friends you have, or hire someone to help you. It doesn't matter who they are, if you call them your team, we won't judge you. You're more than welcome to play by yourself, just be sure your table has no more than 8 people.
- **No Cheaters!** - There are no lifelines. We are not Regis. Absolutely no cell phones, no internet enabled devices, no laptops with Encarta '97, no wicked smart uncle who isn't included on your team, can help you with the answers. Watch out, people get competitive and aren't afraid to tell on you.
- **Don't Yell Out Answers** - Having fun is allowed, being obnoxious is not. Yell out an answer when a question is asked, right or wrong, and feel the wrath...
